Conquer the Ugly Wave of Trash

The meeting will open with a presentation by Pam Cooper, anti-litter manager with Chesterfield County.

Debris is the rubbish of our everyday lives that makes its way into our ocean. Rubbish travels our land, down streams, rivers and storm drains to the ocean. Once in the ocean, it can drift thousands of miles from origin to the most remote ocean places leaving a wake of destruction in its path. Every year, debris kills thousands of marine animals, seabirds, reefs and smothers critical environments. The contamination affects human life.

Starting in your community, ride the ugly wave of trash and find ways to make an environmental difference. Conquering the wave will enhance the quality of life in your community and the world.
